W C Wills has returned

Rev E A Sears will hold divine services in the ME Church, South, at 11 o'clock to-morrow morning.

The best preparation in the market for restoring gray hair to its original color is Hall's Vegetable Sicilian Hair Renewer. Try it! Try it!

By referring to our advertising columns it will be seen that J. H. Kincaid has reduced the price of photographs to the small sum of \$1.50, or \$2.50 per half dozen. Mr. K. is well known in this vicinity, and those desiring pictures should give him a call. Gallery opposite W H Rubell's office, main street.

On Tuesday forenoon, Mr. Berry Riggs came to town on horseback, and hitched the animal in front of the store of Messrs. N. & J. D. Lee, to a ring. A passing team frightened the horse, causing him to pull back, when the plank gave way, and the bystanders stopped the horse in time to save that portion of the sidewalk which he had concluded to take away with him.

Bugs many a cabbage plant in this vicinity is completely ruined by the bugs. These insects are so small that they look like "blue midges," they rest on the plants. Everything has been tried to kill them, but it seems an impossibility. Some advise one thing and some another, but in a week after the application of the remedy the plants are again covered with the pests. Will somebody send us a pair of pinchers to draw their teeth?

Our Need.—Several times we have given a gentle hint to the editor that we desired those in arrears for subscription, job work, or advertising, to call and settle their bills. It is not pleasant for us to remind those indebted to us that we want money, but when a man allows his printer's bills to stand two and three years he must expect to be called on for it. Those knowing themselves indebted to this office for the last three years, will confer a very great favor by calling and settling. A newspaper may successfully give its subscribers the benefit of one year's credit; but is hardly fair for our "patrons" to expect us to wait until they die just to gratify them in a little whim—that of leaving us the little amount in their wills.

A Correspondent, writing from Athens, curiously contrasts the mixture to be found there of ancient and modern civilizations. Railroads spin their trains amid temples of 3000 years steaming dash their wheels upon the Pireus, and he is one of their whistles resounds from Athos, Pentapolis and Cytheron to Olympus and the heavens beyond their gods. Dr. Ayer's world-renowned medicine, these consummations of modern science, are posted on the Acropolis, the Parthenon, the Areopagus and the Thesaurus, while the modern gods of Cherry Pectoral, Ayer's Sarsaparilla, Ayer's Cure and Pills look from the windows of the shops in the streets of Athens, woe, they are said.—N. Y. Sunday Globe.

To the Fair, the Weary, and Distressed. A few days ago, while in Salem, we stopped at the Commercial Hotel, and found everything as neat as a new pin. Messrs. Riley & Lippincott have leased this popular house, and intend running it for the benefit of the traveling public. The building is of brick, and large enough to accommodate all that can get inside, and no two in a bed—in fact it is like an omnibus, always room for one more. There is a fine commodious dining hall, neat and clean, and well arranged. Good cooks and accommodating waiters, is a pleasant feature of this house. The proprietors are polite and obliging, and one may feel certain of having every attention paid to his comfort, should he favor them with his patronage. The table is always furnished with every luxury the market affords, and they furnish their patrons three "square" meals a day. A hack will convey passengers and luggage free of charge, to or from the boats or cars. The travelers will appreciate this, as they know how it is themselves, to arrive in a strange place, and be compelled to foot it to a boarding house through heat of summer, or wet of winter, and we are certain the efforts of the proprietors in this particular will be highly appreciated by those having the "misfortune" to travel this hot weather. In fact the Commercial ranks as one of the finest hotels in Oregon, and the names of Riley & Lippincott will bring many patrons to the house, as they are both well known to the traveling public.

To the people of Polk and surrounding counties, who visit Salem, we would say, for comfort, clean beds, good grub, and everything that makes life pleasant, be sure to "put up" at the Commercial hotel.

A Perilous Season.

Glorious and delightful as the Summer weather is, its tropical heat is a severe trial to the vital powers. Even the strongest are sometimes prostrated by its effects. The common phrase applied to this condition of the body is "general debility." Now, general debility arises from, and includes a variety of ailments. The liver is more or less affected, the bowels are either constipated or too much relaxed, the stomach but half performs the work of digestion, the appetite is poor, and the spirits depressed. This is what is called general debility. It is a general disarrangement of the physical functions, and requires as a remedy a medicine that will regulate them all. Hostetter's Stomach Bitters is specially adapted to this purpose. Its general operation is not confined to a single organ. If the liver is affected, it restores its tone. If the stomach is torpid, it regenerates it. If the nerves are tremulous and weak it braces and reinforces them. If the mind, which ever sympathizes with the body, is gloomy and despondent, it relieves the difficulty, and soon brings the whole mechanism of the body into harmony with the laws of life and health.

There is no civilized nation in the Western Hemisphere in which the utility of Hostetter's Stomach Bitters as a tonic, corrective, and antibilious medicine, is not known and appreciated. Throughout the Tropics it is considered both by the people and by the profession, the standard specific. While it is a medicine for all seasons and all climates, it is especially suited to the complaints generated by the weather, being the purest and best vegetable stimulant in the world.

Beware of the Bitters made of acid and dangerous materials, which unscrupulous persons are endeavoring to foist upon the people. Their name is legion, and the public has no guarantee that they are not poisonous. As here to the tried remedy, Hostetter's Bitters, sold only in glass, and never in kegs or barrels.

Ever since the art of taking pictures was first introduced, by means of chemicals, it has steadily improved, until now it has become as it were, perfect. It has cost those engaged in this art many years of patient study, until now they give to the world that power so much desired by the poet, and the "gilt's been given us; we see ourselves as others see us." For further particulars call at the "Teat," where Bruce & Adams will answer all questions and demonstrate the theory by taking your picture.

NOTICE.—Having returned from Ochoco, I am now determined to sell out my entire stock of furniture at greatly reduced prices. Owing to continued ill health, I desire to sell completely out, including machinery, shop fixtures, etc. Here is a splendid chance for any person desiring to follow cabinet making. A good water power is connected to the shop, which can be rented annually at a low price. For further particulars apply to
W. C. WILLS,
Dallas, Polk Co., Oregon.

News Summary.

Chicago, July 29.—The Liberal Republicans held their first mass meeting of the campaign in this city this evening. Speeches were made Senator Trumbull and others.

Washington, July 29.—Telegrams from North Carolina this morning said the campaign now drawing to a close, will certainly be a Republican success. Democrats are alarmed and are trying to create the impression that large numbers of negroes have been imported from Virginia to vote the Republican ticket.

Philadelphia, July 29.—The Japanese Embassy, was handsomely entertained by the city this evening. Iwakura and others made speeches.

New York, July 30.—The President arrived at Utica this morning, where he will be given a public reception, and be the guest of Senator Cooklin until Thursday, when he leaves for Thousand Islands.

A public dinner, tendered by the Chamber of Commerce to the Japanese Embassy, has been declined, owing to the departure of the Embassy on the 1st of August.

Chicago, July 30.—It is reported that B. Steiner, the manager of the Ledger course in this city, and lately associated with Charles Wydhm in the management of the French band concerts in this city and elsewhere, decamped with a large amount of funds, receipts of concerts in this city and Cincinnati.

The weather throughout the West has been hot for the past few days.

The latest crop reports are favorable showing that the yield of wheat will be an average one, while the oat crop will be unusually large, and corn promises to be as good as ever before known.

A Raleigh dispatch says it is announced that last Saturday the names of two hundred Republicans had been marked for challenge there. Yesterday nine hundred and eighty-three names out of the voting population of one thousand one hundred and thirty, were marked for challenge in the town of Kingston. In this number were included Democrats. The object of challenging seems to be to prevent a full vote. The Republican Committee sent messages throughout the State calling upon Republicans to appear and exercise their rights to vote.

The documents in the case of Chas. Thierle, an American resident in Mex-

ico imprisoned four months by the authorities and subjected to other outrages, have been forwarded to Washington.

Washington, July 29.—The Secretary in charge of the Colombian Legation unexpectedly sent to the Department of State a large part of the balance due for claims according to the awards of the Joint Commissioners. They had been delayed in consequence of the failure of the Panama Railroad Company to pay their liabilities to the Colombian Government. The company having resumed payments the Government has resumed payments to the United States.

A special call that acting Secretary Richardson estimates the damage to the Government in the matter of paying for captured cotton alone during the rebellion and by the purchase of Confederate archives, will not be less than two or three millions of dollars. Several claimants before the Southern Claims Commission for large sums of money, and whose loyalty seemed fully established, are now found to have been in the employ of the rebel Government which, of course, ends their claims.

San Francisco, July 29.—No confirmation of the report of President Juarez having been received prominent Mexicans are betting he is not dead.

Advices from Guatemala state that the friars now in this city were exiled under a law of the Republic closing all convents and monasteries and devoting the buildings and property not necessary for church use to the State. San Salvador has taken the same action. This is exactly the same course pursued by the late Juarez in Mexico. The exiled friars are allowed \$25 a month pension from the Government for one year.

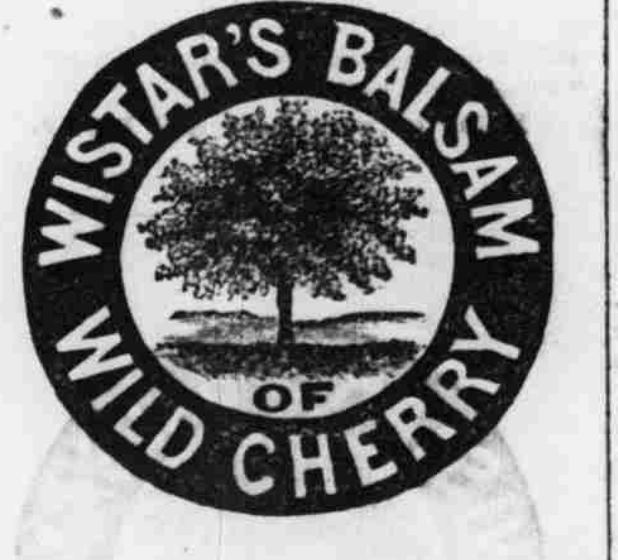

Eight Apache, Pima and Papago chiefs, who have been East on a visit to the great father under the management of Gen. Howard, arrived here last night overland en route to Arizona.

The Superintendent of Streets is engaged to day fencing various public places, school and engine lots in the western part of the city, to prevent their being squatted on by jumpers, who are actively prospecting for such property in all parts of the city.

San Francisco July 30.—Jas. E. Dixon is on trial in the Municipal Court, charged with grand larceny by appropriating to his own use \$10,000 placed in his hands by G. H. Whitney, stock broker, who anticipated being attacked by his creditors. The money was nearly all recovered from Chestnut to whom Dixon had given it. Dixon was arrested at Corinne.

It is rumored here that the title to the town ship of Suelburn, Nevada, is to be claimed by Ben Holliday, under the act of Congress giving him 300 acres at each station constructed on the old Overland Express and stage line. An agent has been sent up there to take possession. No mining property falls within the 300 acres.

A smaller dividend than any had for a month will probably be paid by Crown Point this month, and this expectation somewhat effects the whole market.

The standard remedy for Coughs, Influenza, Sore Throat, Whooping Cough, Croup, Liver Complaint, Bronchitis, Bleeding of the Lungs, and every affection of the Throat, Lungs and Chest, including Consumption. Wistar's Balsam does not dry up a Cough, but loosens it, cleanses the Lungs, allays irritation, thus removing the cause of the complaint. None genuine unless signed I. BUTTS, Prepared by SETH W. FOWLE & SON, Boston. Sold by REDDINGTON, HOSTETTER & CO., San Francisco, and by dealers generally. 16-ly

CHOLERA.

HOW TO CURE IT.

At the commencement of the Diarrhoea, which always precedes an attack of the Cholera, take a teaspoonful of Pain Killer in sugar and water, (not if convenient,) and then bathe freely the stomach and bowels with the Pain Killer. Should the diarrhoea or cramps continue repeat the dose every ten or fifteen minutes until the patient is relieved. In extreme cases, two or more teaspoonfuls may be given at a time.

The Pain Killer, as a remedy, has no equal. It cures Cholera, Summer Complaints, Dysentery, Diarrhoea, Asthma it cures in one night by taking it internally, and bathing with it. Its action is like magic, when externally applied to Old Sores, Burns, Scalds, and Bruises. For Sick Headache and Toothache don't fail to try it. In short, it is a PAIN KILLER.

Directions accompany each bottle. The Pain Killer is sold by all dealers in Medicine.

Prices, 25 cents, 50 cents and \$1 per bottle.

Midsummer Maladies.

The hot solar rays that ripen the harvests generate many distressing diseases. If the liver be at all predisposed to irregularities, this is the season in which bilious attacks may be anticipated. A weak stomach, too, is weakest in the summer months, and the loss of vitality through the pores by excessive perspiration is in great, that a wholesome tonic, combining the properties of a diffusive stimulant and gentle exhilarant, is in many cases necessary to health, and under no circumstances should be dispensed with by the sickly and dilapidated. Of all the preparations intended thus to refresh, sustain, and fortify the human frame, there is none that will compare with Hostetter's Celebrated Stomach Bitters. They have been weighed in the balance of experience and not found wanting; have been recommended from the first as a great medical specific, not as a beverage, and in spite of interested opposition from innumerable quarters, stand, after a twenty years trial, at the head of all proprietary medicines intended for the prevention of all ordinary complaints of the stomach, the liver, the bowels, and the nerves. In the unhealthy districts bordering the great rivers of California, Hostetter's Stomach Bitters may be classed as the standard one for every species of intermittent and remittent fever. The people who inhabit those districts, please the most implicit confidence in the preparation—a confidence that is increased every year by the results of its operation.

As bitters, so called, of the most pernicious character, are springing up like fungi on every side, the public is hereby forewarned against the cheap-shop frauds. Ask for Hostetter's Bitters, see that the label etc., are correct, and remember that the genuine article is never sold in bulk, but in bottles only.

NEW ADVERTISEMENTS.

HALL'S VEGETABLE SICILIAN HAIR RENEWER

Every year increases the popularity of this valuable Hair Preparation; which is due to merit alone. We can assure our old patrons that it is kept fully up to its high standard; and it is the only reliable and perfected preparation for restoring GRAY OR FADED HAIR to its youthful color, making it soft, lustrous, and silken. The scalp, by its use, becomes white and clean. It removes all eruptions and dandruff, and, by its tonic properties, prevents the hair from falling out, as it stimulates and nourishes the hair-glands. By its use, the hair grows thicker and stronger. In baldness, it restores the capillary glands to their normal vigor, and will create a new growth, except in extreme old age. It is the most economical HAIR DRESSING ever used as it requires fewer applications, and gives the hair a splendid, glossy appearance. A. A. Hayes, M.D., State Assayer of Massachusetts, says, "The constituents are pure, and carefully selected for excellent quality; and I consider it the BEST PREPARATION for its intended purposes." Sold by all Druggists, and Dealers in Medicines. Price One Dollar.

Buckingham's Dye FOR THE WHISKERS.

As our Renewer in many cases requires too long a time, and too much care, to restore gray or faded Whiskers, we have prepared this dye, in one preparation; which will quickly and effectually accomplish this result. It is easily applied, and produces a color which will neither rub nor wash off. Sold by all Druggists. Price Fifty Cents.

Manufactured by R. P. HALL & CO., NASHUA, N.H.

Ayer's Cathartic Pills.

For all the purposes of a Laxative Medicine.

Perhaps no one medicine is so universally required as a cathartic, nor was ever any before so universally adopted into use, in every country and among all classes, as this mild but efficient, purgative Pill. The obvious reason is, that it is more reliable and far more effective remedy than any other. Those who have tried it, know that it cures them; those who have not, know that it cures their neighbors, and all know that what it does once it does always—that it never fails through any fault or neglect of its composition. We have thousands upon thousands of certificates of their remarkable cures of the following complaints, but such cases are known to every neighborhood, and we need not publish them. Adapted to all ages and conditions in all climates; containing neither calomel or any deleterious drug, they may be taken with safety by anybody. Their sugar coating preserves them ever fresh and makes them pleasant to take, while being purely vegetable no harm can arise from their use in any quantity. They operate by their power in inducing the internal secretions to purify the blood and stimulate it into healthy action—remove the obstructions of the stomach, bowels, liver, and other organs of the body, restoring their irregular action to health, and by correcting, wherever they exist, such derangements as are the first origin of disease.

Minute directions are given in the wrapper on the box, for the following complaints, which these Pills rapidly cure:—

For Dyspepsia or Indigestion, Flatulency, Laughter and Loss of Appetite, they should be taken moderately to stimulate the stomach and restore its healthy tone and action.

For Liver Complaint and its various symptoms, Bilious Headache, Sick Headache, Jaundice or Green Sickness, Rheumatism, Colic and Bilious Fever, they should be judiciously taken for each case, to correct the diseased action or remove the obstructions which cause it.

For Dysentery or Diarrhoea, but one mild dose is generally required.

For Rheumatism, Gout, Gravel, Painful action of the Heart, Pains in the Side, Back and Loins, they should be continuously taken, as required, to change the diseased action of the system. With such change those complaints disappear.

For Dropsy and Dropsical Swellings they should be taken in large and frequent doses to produce the effect of a drastic purgative.

For Suppression a large dose should be taken as it produces the desired effect by sympathy.

As a Diuretic Pill, take one or two Pills to promote digestion and relieve the stomach.

An occasional dose stimulates the stomach and bowels into healthy action, restores the appetite, and invigorates the system. Hence it is often advantageous where no serious derangement exists. One who feels tolerably well, often finds that a dose of these Pills makes him feel decidedly better, from their cleansing and renovating effect on the digestive apparatus.
